

ANDIKA CAHYA RAHMAN

+62 887 1729 638 | andikacrwork@gmail.com | Jakarta, Indonesia

ABOUT ME

My name is Andika Cahya Rahman. I have a strong interest in programming. I enjoy learning new things, both academic and non-academic, especially those I haven't mastered yet. I also have strong skills in web development, particularly in front-end technologies such as React.js, Tailwind CSS, and modern JavaScript. I'm always eager to improve my coding abilities and create user-friendly, responsive, and visually appealing web interfaces.

WORK EXPERIENCE

Data Entry (Internship) - PT. Elnusa Fabrikasi Konstruksi

July 2025 - January 2026

- Process and validate data from the CMMS system.
 - Prepare and maintain work recap reports.
 - Provide support for other operational tasks as required.
-

EDUCATION

Major in Software Engineering

Vocational High School State 65 Jakarta

- Specialization in Front End Development and Full Stack Development

July 2023 - July 2026

PROJECT

Gym Rex

Gymrex is an app project I developed to help beginners start their fitness journey. It provides workout guides, proper exercise techniques, and tips to stay consistent and motivated. Through this project, I gained valuable experience in design, problem-solving, and creating something meaningful for others.

Web Portfolio

This web portfolio project was developed using React.js and Tailwind CSS. I built it to showcase my skills in modern front-end development, focusing on responsive design and unique user interfaces. Through this project, I also learned more about component-based architecture and how to manage styles effectively using Tailwind. The website highlights my previous projects, demonstrating my creativity, coding abilities, and attention to design details.
